## Application

JE-Y(ST)Y...BD EB is a connecting cable for industrial electronics. It can be used in measurement and control engineering and also as pulse and data transmission cable.

With the blue outer sheath the cable is designed for the installation of intrinsically safe circuits in hazardous (explosive) areas.

The cable meets the requirements of EN 60079-14 (VDE 0165-1) where a special marking for cables of hazard type "i" (intrinsically safe) is specified.

The cable is intended for use in dry and damp interiors and for fixed installation.
